## Options for DIVa submission

### DIVa™ Attribution:

This applies to attribution of a coin in one of 4 specific TPG brand holders by an Ike Group DIVa™ expert, placement of a DIVa™ sticker on the holder, and placement of the coin's certification number in a DIVa™ catalogue database. Only coins in ANACS, ICG, NGC, or PCGS holders will be accepted for formal DIVa™ attribution. The DIVa™ catalogue database (with attributed certification numbers) will be maintained and periodically published to the Ike Group website for public verification. Coins failing to meet DIVa™ attribution standards will be fully subject to the DIVa™ attribution fee – no refund will be offered.

### Re-Sticker:

There are two possibilities for the re-sticker option. They are:

1. Coins previously stickered that are in the DIVa™ catalogue database and had the sticker removed, regardless of reason
2. Coins still bearing an old-style red sticker that you wish to receive a new attribution sticker and placed in the new DIVa™ catalogue database

**NOTE:** Coins that once had an old red sticker but have had the sticker removed must be re-attributed with a full attribution fee. Coins that have been crossed from one TPG holder to another must be re-attributed with a full attribution fee

\*\*There is no guarantee that coins previously stickered with an old red sticker will qualify for DIVa™ attribution in any way. If the coin fails to meet DIVa™ attribution criteria, the re-sticker fee will still apply.

### Raw Qualification

Raw coins cannot receive an attribution sticker or be placed in the DIVa™ catalogue database. The qualification fee is for an attributor to evaluate your raw coin and confirm whether it would qualify for a DIVa™ attribution, if the coin were to be in a TPG holder. The owner will be notified of the qualification. If a "qualified" raw coin is submitted by the owner to a TPG company and is holdered, the coin would be then need to be subject to full DIVa™ attribution fee and submission for formal DIVa™ attribution, stickering, and placement in the DIVa™ catalogue database.
