

1SB-405.2

AKA: *Van Gogh*

Pick-up Points:

Obverse markers (DMR1)

- Characteristic linear die gouge or die crack running vertically in rear of Ike's ear
- There is a barely detectable small spread DDO (1971S SB DDO Family 2) might be detected in early die stages, but washes out in later dies stages - not a reliable marker
- Partial eye - abraded front side of the pupil, resulting in loss of a portion of the front of the pupil

Reverse Markers

- There is a small spread DDR seen in AR and star 13 (1971S SB DDR Family 3)
- Abrasion repair present in "jaw line" clash area near the earth
