

2D-402

AKA: *Peg Head*

Pick-up Points:

Obverse Markers

- “Peg Head” L (also loss of serifs at the top of the letters I and B)
- Near peg leg R (not quite a legitimate peg leg R, as the residual serif flares at the foot of the R extend wider than lines dropped down from the upper part of the vertical portion of the R)
- Die scratches
- Die abrasion scratch appear throughout, but robust markers include:
 - vertical scratch from E to 9
 - scratches to right of the back of Ike’s neck
 - small scratches in front Ike’s eye
 - scratches adjacent to the left and bottom of the B in LIBERTY

Reverse Markers

- Die scratch: Robust die scratch running from east of earth up between e and p to star 6.
- “Moon line” die clash. Clash of Ike’s head on the moon.
