# 2D-404

AKA: ***Obverse Die Crack***

**Pick-up Points:**

**Obverse**

- Extensive die crack, spanning from about 8 o'clock to about 6 o'clock, extending from the IN TR in the motto to the 19 in the date.
    - Small die chips associated with the die crack near the 1 and 9 in the date.
- MMP (mint mark placement)
- VLDS (very late die state)

**Reverse**

- Two die gouges - within the loop of the D, and between the D and O in DOLLAR
- VLDS (very late die state)

Attribution note: *There may be Ike dollar coins struck from the same die a) pre-crack, or b) with a smaller / earlier die crack, or c) perhaps even with a bit longer die crack. For attribution, though, the crack must extend from at least the I in the motto to the 9 in the date.*
