

# 2SB-402.1

AKA: *Trail Die*

## Pick-up Points:

### Obverse Markers

- Characteristic trail die effect best seen in “D” and “ST” in the motto, with small effect in the “U”
- multiple die cracks in the top of head
- Three small die gouges (dots) in the vicinity of the R in LIBERTY
- Small linear die gouge just below the loop in 9
- Two small die gouges (dots) below the “E” and east of the “T” in the motto

### Reverse Markers

**Note:** *due to die re-treatments, the reverse die can be identified in two distinct die stages, yielding 2SB-402.1 - earlier, and 2SB-402.2 - later*

- Up-line hub source DDR. Seen best in the earlier die state reverse, 2SB-402.1. Faint remains of the DDR can be observed in the later die stage, 2SB-402.2, however.

### 2SB-402.1 reverse markers

- Shadow Ike, evident at the upper left of the Earth
- Extra lunar lines present
- Die gouge (dot) associated with the “C” in AMERICA
- Linear die scratch / gouge between the “O” and “F” of OF
- Die gouge associated with star #6
- Die scratch associated with the “D” in UNITED
